HEY, HOW ARE YOU?

Thank you for reaching out! We will gladly help you bring customers to your page and attract more visitors to your yoga studio. The campaign can be successfully run with a budget of \$10000 which means that there are more than enough chances to succeed. You should follow the following steps to try and get the most out of this investment.

Facebook Ads Strategy

We will develop the ad sets that will drive traffic to your web page. Here's how:

- Audience Segmentation:
 - 1.Location: All citizens within a 10-15 km radius of your studio.
 - 2.Interests: Yoga, wellness, fitness, and other kinds of activities.
 - 3.Custom Audiences: We will upload your e-mail list mentioned below for retargeting.
- Ad Formats:
 - 1.Easily navigable homepage featuring carousel ads about your studio and the free class on offer.
 - 2.Promotional videos showing potential client's class advantage and feel.

Retargeting Campaign

TO RE-ENGAGE VISITORS WHO DON'T CONVERT INITIALLY:

- Facebook Pixel Integration:
- This piece of code will give it the ability to monitor activity on a website.
- Used to retarget the users who viewed membership packages but did not make any purchases.
- From the site's visitors, we will place a "look-alike" audience, to capture similar potential customers.

Email Campaigns

Concerning this, compliance with CASL (Canada's Anti-Spam Legislation) is central. We cannot even use the Lululemon email list, it means we must get consent from users to use their emails.

Here's how we'll manage emails legally and effectively:

- Invite only subscribers who via your website gave express permission to send them messages about your class invitation.
- There has to be an easily identifiable and functioning option in every single email that allows a person to safely unsubscribe.
- Here is more information about CASL compliance.

Next Steps

WE SHOULD, HOWEVER, SET A CALL TO FULLY REVIEW YOUR CAMPAIGN. YOU CAN USE THIS LINK AND PROCEED TO BOOK FOR THAT TIME THAT IS MOST SUITABLE FOR THE MEETING.
